

ROGEN

YELLOW LABEL

» 2 person

» An excellent all-around tent for warmer weather trips where the lightest weight is the prime concern.

Colors:
green or red

THE ROGEN is an excellent tent for any trip in warmer and snow-free conditions where very light weight is of the highest importance. Dome construction affords stability and strength for use in more exposed situations, and makes the Rogen a great choice for tough pitching situations. It is quick and easy to set up, boasts two doors and two vestibules, and has room enough for two plus their gear – yet it is easily light enough for use as a (wonderfully roomy) solo tent.

The pole system employs two long, crossing poles for the basic shape and a shorter pole in the roof, which both increases stability and provides head room in the vestibules. In keeping with its Yellow Label design, its outer tent does not go all the way to the ground, so air flow is constant, even in wet weather. And in fine weather, rolling away the vestibules exposes the near-full mesh inner tent doors for cross venting. Paddlers, summer mountain scramblers, backpackers, bicycle tourers – all will find the Rogen's remarkable spaciousness, two door comfort, and self-supporting construction appealing.

"Rogen" is a nature preserve in northern Sweden that is famous for its canoeing.

Rogen

Minimum Weight	1.8 kg/4 lbs
Packed Weight	2.1 kg/4 lbs 10 oz
Inner Height	97 cm/38 in
Inner Tent Area	2.9 m ² /31.2 ft ²
Vestibule Area	2 x 1.1 m ² 2 x 11.8 ft ²
Outer tent fabric	Kerlon 1000
Poles (9 mm)	2 x 377, 1 x 127 cm 2 x 148.4, 1 x 50 in
Pegs	12 Tri-Pegs

Every Hilleberg tent comes with outer tent, inner tent, guy lines with line runners, poles, pegs, stuff bags for tent, poles and pegs, spare pole section, repair sleeve and instructions.

"Minimum Weight" refers to the outer and inner tents and the poles only. "Packed Weight" includes all items that come with the tent.

All product features and measurement values, including tent weight and pole length, may vary somewhat from what is shown in our catalog, other printed items, and on our web site. Such differences can occur because of alterations in the design and production process and/or natural variations in the materials. Fabric dyes have natural variations, so the actual tent color may look slightly different from what is pictured here or on our website.

The Rogen is a summer backpacker's delight, offering two entrances and vestibules, superb venting and a very light weight: a perfect choice, as seen here, for a trip in Tasmania.

Rogen Details

Inner tent doors are nearly all mesh, providing constant air flow.

Short roof pole provides head room in the vestibule and entrance while keeping the weight low.

Looped guy lines affixed to twin attachments on each side of each pole increase stability in poor conditions.

» Kerlon 1000 outer tent fabric and 9 mm poles make for a supremely lightweight tent that is still quite strong.

» 3 season design: ventilation is built into the construction, and the inner tent mesh areas have no backing fabric panels.

» Dome construction with two main crossing poles is an excellent choice for tough pitching conditions.

» The Rogen has a good amount of room for two occupants and their gear.

» Linked but separable inner and outer tent for simultaneous pitching.

» Self-supporting dome design requires only the vestibules to be pegged, and the lightweight pole system combines 9 mm poles with Lock Tip ball ends, open ended pole sleeves, and an innovative grommeted webbing tab with an adjustable tensioner.

» Dual entrances and vestibules ensure that one door can always be situated out of the wind and provide flexible entry/exit and storage options.

» An optional footprint covers only the inner tent area and not the vestibule. It connects directly to the tent, and can be left attached during pitching.

» The inner tent can be replaced with the Rogen Mesh Inner tent (sold separately; see page 76).

» The outer and inner tents can be used separately. Pitching the inner tent alone requires moving the detachable pole holders from the outer to the inner tent.

Rogen awards

Dutch outdoor magazine *Op Pad* conducted a tent test and named the Rogen **Test Winner**. "Excellent three-season tent. Easy and quick to set up, even in bad weather. Sophisticated to the last detail and therefore the Test Winner."

2015

Utemagasinet, Sweden's largest outdoor publication, named the Rogen **Product of the Year**, noting that it is equally well-suited for backpacking, paddle touring and travel use. "There is a lot of function for very little weight."

2012
