

HILLEBERG

THE TENTMAKER

WHAT'S NEW FOR 2016

Niak – very light 1 to 2 person three-season tent

YELLOW LABEL

The new Niak is a highly versatile three-season tent. Offering palatial comfort for one, the Niak is also a fine two-person option for those looking to keep weight to a minimum.

Tarp 5 – for the solo user

SHELTERS

Very light yet strong, the Tarp 5 is designed for solo backpackers who want a minimal shelter that lives up to the Hilleberg name.

Stalon XL – our largest tent

BLUE LABEL

Designed with professional users in mind, the fully modular Stalon XL will sleep 14, but can also serve as nearly any kind of mobile backcountry building.

NIAK

NEW MODEL

YELLOW LABEL

- > 2 person
- > A very simple, very light and highly versatile three-season tent.

Colors:
green or red

THE NEW NIAK expands on our concept of very lightweight yet remarkably strong three-season tents that we introduced with our one-person Enan. A veritable lightweight palace for one person, the Niak is also quite suitable for two people who want to go as light as possible.

The Niak's outer tent is made from our Kerlon 1000, and it is supported by the same DAC NSL 9 mm poles used in our Red and Yellow Label models. The result is a tent that is the perfect three-season solo tent when you want to be as comfortable as possible at a low weight. At the same time, the Niak will accommodate two, and is especially good for a parent and a child, or for one person and a dog

The Niak's simple, two pole design – inspired by our Red Label Unna solo tent – is quick to pitch and very stable, and the single vestibule can be completely rolled away to maximize air flow through the full mesh inner tent door. In addition, catenary curves along the bottom edges of the outer tent create space that both allows for constant air flow and also ensures that the outer tent is stretched properly for optimal performance.

Prior to its introduction, the Niak went through well over 250 backcountry nights of testing, in all types of weather, in Scandinavia and the US, as well as in the Alps and in Scotland. Testers loved its palatial comfort for solo use at such a low weight, and all proclaimed it as the outstanding choice for any summer or warm weather trip where comfort is as high a priority as light weight.

Niak is a peak in Sarek National Park in northern Sweden.

The very lightweight Niak is an outstanding tent on any three season trip, since it can be used either for one or two people. Seen here in the Cairngorm mountains of northern Scotland. Photo: Petra Hilleberg.

Niak	
Minimum Weight	1.5 kg/3 lbs 5 oz
Packed Weight	1.7 kg/3 lbs 12 oz
Inner Height	100 cm/39 in
Inner Tent Area	2.6 m ² /28 ft ²
Vestibule Area	0.75 m ² 8.1 ft ²
Outer tent fabric	Kerlon 1000
Poles (9 mm)	2 x 370 cm 2 x 145.7 in
Pegs	10 V-Pegs

Every Hilleberg tent comes with outer tent, inner tent, guy lines with line runners, poles, pegs, stuff bags for tent, poles and pegs, spare pole section, repair sleeve and instructions.

"Minimum Weight" refers to the outer and inner tents and the poles only. "Packed Weight" includes all items that come with the tent.

All product features and measurement values, including tent weight and pole length, may vary somewhat from what is shown in our catalog, other printed items, and on our web site. Such differences can occur because of alterations in the design and production process and/or natural variations in the materials. Fabric dyes have natural variations, so the actual tent color may look slightly different from what is pictured here or on our website.

TARP 5

NEW MODEL

SHELTERS

- > A very lightweight shelter for the solo camper.

THE NEW TARP 5 was created with the minimalist solo backpacker in mind. As with the other Hilleberg tarps, our goal was a very light shelter that also offered the strength and reliability we are known for.

The Tarp 5 – denoting that it is five square meters of fabric – is shaped specifically to cover a single person while also providing extra room for gear. Its design both makes it easy to get into and out of, and allows for adjustable levels of weather shielding: pitch it fairly high off the ground for the full, airy, tarp experience, or pitch it with its edges nearly on the ground to make a remarkably protective refuge from bad weather.

To keep the weight low, we make the Tarp 5 from our Kerlon 1000, one of our dedicated 3-season fabrics, which has a substantial 8 kg/17.6 lb tear strength. Like our other Tarps, the Tarp 5 comes equipped with attached guy lines – in this case the proprietary 2 mm Vectran and polyester line found in our Yellow Label tents. It can be pitched using trekking poles, or by suspending either end of its ridge line, and it also has its own integrated stuff pocket, so that, when packed, the Tarp 5 is about the size of a one liter cooking pot.

Colors:
green or red

The Tarp 5 can be pitched and adjusted easily to different weather conditions.

- 1 & 2. The Tarp 5 is shaped specifically to provide a solo camper with plenty of coverage.
3. For the full, airy tarp experience, the Tarp 5 can be pitched higher off the ground.
4. For bad weather, the Tarp 5 can easily be lowered, affording impressive weather protection, but still offering a good deal of room and "livability."
5. The Tarp 5 packs into its own stuff sack, and takes up about the same space as a 1 liter cooking pot.

Tarp 5

Weight	320 g/11.3 oz
Length	318 cm/125.2 in
Width	215 cm/84.7 in
Fabric	Kerlon 1000

All product features and measurement values, including tent weight and pole length, may vary somewhat from what is shown in our catalog, other printed items, and on our web site. Such differences can occur because of alterations in the design and production process and/or natural variations in the materials.

STALON XL

NEW MODEL

BLUE LABEL

- > 14 person
- > A very large, highly versatile and completely modular group tent.

THE STALON XL is a large, robust, modular tunnel tent that is fully capable of all season, all condition use, but is also easy to set up, and it can be done by one person. Designed with professional use in mind, the Stalon XL can be configured in near endless ways. It can serve as a classroom for adventure outfitters, a mobile medical station, command center, or staging/briefing room for search and rescue teams, or as a field dormitory for any large group. Each module of the tent can be zipped on or off to accommodate the needs of the user, and multiple modules can be quickly connected or disconnected as necessary.

The Basic version includes two Vestibules, each with two large doors; a Main Roof, or mid-section, which has "bag" opening vents to accommodate ducting for hot or cold forced air systems; an Extension with two large, zipper doors; poles and pegs; and a Carrier Bag, which will hold all components and is designed to be carried as a backpack. The optional standard Inner Tent has room enough to sleep 14 and venting that mates with that of the Main Roof, and with the optional Connector, multiple tents can be linked at the Extension doors.

Color: Green 

The Stalon XL is remarkably versatile. It can be configured with all modules [1](#) & [2](#), or made smaller by removing either the Main Roof or the Extension [3](#). Multiple Stalon XLs – configured as desired – can also be connected with the Connector [4](#) & [5](#).

Stalon comes from *Stalo,* which, in the mythology of the Sami, the indigenous people of Scandinavia, is a race of giants.

Stalon XL

Stalon XL Basic Wt.*	20.7 kg/45 lbs 10 oz
Height	235 cm/92.5 in
Area	39.5 m ² /425.2 ft ²
Outer tent fabric	Kerlon 2000
Poles (17 mm)	5 x 720 cm 5 x 283.5 in
